

SWANSON RAPS EQUALITY CLUB

Says White and Negro Dinner
Aggravates Race Problem When
There Is Peace.

Like other public officials in the South, Governor Swanson yesterday expressed strong views on the subject of the white and colored club dinner in New York, declaring that disgraceful performances of this character make the race problem more difficult of solution. The Governor said:

"It is difficult to believe that the accounts published in the papers of the dinner of the Cosmopolitan Club in New York are true. It is difficult to believe that the persons were respectable, as stated, and that they could give expression to such views."

"It is such disgraceful performances as these and expressions of such views that make more difficult the solution of the negro problem, and the persons who are most injured by such actions in the North are the negro people of the South. There is one thing that the South is determined upon, and upon which it will never tolerate or permit in the slightest degree, and that is social equality. The negro people and their pretended friends realize and understand this the better."

"The speeches and performances, as appearing throughout the press reports, can bring nothing but disgrace to respectable people North and South, who must entertain for such proceedings and performances supreme contempt."

TO PROTECT SCHOOLS

Board Wants Council to Provide Funds for
Safety Appliances.

In response to a request from the Daughters of the Confederacy, the City School Board at its session last night gave its sanction to a plan to have every child in the Richmond public schools equipped with a pennant each toward the erection of a monument in Arlington in memory of the Confederate soldiers who died in the war.

On the reorganization of the board for the coming year all of the old officers were retained.

The board awarded a contract to the Dow, Neal and Iron Works for two Kicker, Bender and family, to erect a monument to the present High School Building as provided for in a recent appropriation. The building and family were to erect a monument to the present High School Building as provided for in a recent appropriation. terminated by the committee after careful examination, and analysis of the evidence upon which the demand for the documents was made.

He also stated that all the witnesses whose names were suggested to the committee by Mr. Lilley had been examined, and that the committee had also called on its own account all witnesses who it thought could cast any light whatever upon the issues raised by Mr. Lilley's charges, and also pointed out Mr. Lilley's motives lying behind the unsubstantiated charges.

"There still remain," continued Mr. Beall, "a few fictitiously signed letters handed in by Mr. Lilley, a few anonymous letters, and one or two affidavits which have not been made the basis of any evidence taken by this committee. On careful examination it appears that these suggestions relate either to dead members of the House of Representatives who died in full honor and respect of their fellowmen, or else these relate entirely to remote Congresses and raise questions with which this committee has no power to deal."

The report of the committee probably will be presented to the House for some time. It is the intention of the members to make an exhaustive examination of all evidence and documents submitted, and should they decide to demand the production of the letters and books referred to the report will be much delayed.

THOUSANDS BRING FLOWERS.

Ingathering of flowers and carnations for Thanksgiving Service.
NORFOLK, Va., April 30.—Fifteen thousand people attended the ten services held today in the evangelistic campaign, almost all of them bringing from one to five carnations of roses, making a grand total of fully 50,000 flowers, which were placed in the service of God during the ten days of the meeting.

Committees of ladies from all of the city churches received and are caring for the flowers, pending the great thanksgiving meeting of to-morrow afternoon, at the city hall, where they will be banded on the stage during the services, and afterwards distributed to the poor of the city and sick rooms of the city. Scores of carnations and automobiles will be used by young ladies in making this floral offering to the sick of the city.

WAS NO MARRIAGE AT ALL

Referee Reports That Miss Maloney Did Not Wed Osborne.
NEW YORK, April 30.—A motion to confirm the report of Referee Daniel F. Cahalan in the action brought to annul the marriage of Helen Maloney, daughter of George Maloney, of Philadelphia, to Arthur H. Osborne, a young broker of this city, was made before Justice McCall in the Supreme Court today. The motion was made by Mr. Maloney's counsel, A. L. Hume.

Although none of the testimony could be seen, it was stated that Referee Cahalan had decided that the original marriage between Miss Maloney and Osborne was really no marriage at all. In case Justice McCall confirms the report, Miss Maloney will be free to marry Samuel Clarkson, the young Englishman with whom she eloped last September.

ALL BOYS LEAN TOWARD RIGHT

Speakers at Conference Urge
Teachers to Cultivate Closer
Relations With Them.

Three sessions yesterday of the Conference of Workers with Boys were more successful than those of the day before. The morning and afternoon meetings were held in the Second Presbyterian Church. The address of Mr. Frank Lincoln Massek, "The Age of Chivalry," was given last night in Christ Church parish house. The meetings were presided over by the chairman, Mr. H. W. Barrows.

In the morning Mr. Massek spoke on "Church Boys' Clubs." He showed the necessity of forming such clubs for the boys in order to compete with the various agencies for bad that confront especially the boys of the cities. During the discussion that followed this speech many valuable points were brought out concerning the founding of such clubs.

For Uplifting of Boys.
Mr. J. D. Sharman, at the afternoon meeting, presented the subject "The Spiritual Life of the Boys of To-Day." Mr. Sharman reviewed briefly the scientific basis of religious work with boys. He then gave as the basic principle the fact that children have a natural inclination toward right. This inclination, he declared, could be developed only through the use of high ideals. He discussed the subject under the following heads: "The Boy and His Bible," "The Boy's Prayer Life," "The Boy and His Church," and "The Boy and His Home."

Mr. Sharman concluded by saying that no boy has a natural aversion to the Bible, but that increasing "helps" and substitutes were robbing it of its charm for him. In answer to questions he showed how the Bible could be made interesting.

He called attention to the natural desire for companionship, and urged parents and teachers to become chums of the boys.

At the close of this session a business meeting was called and a committee consisting of Chairman Marrows, Miss Katherine Hawes and Mr. H. T. Simpson was appointed to arrange a plan of organization to be presented at an early meeting, when it is hoped that a permanent alliance of workers with boys will be organized.

The conference closed with the address of Mr. Massek, on "The Age of Chivalry," in Christ Church parish house last night.

DELAY VOTE ON WOODWARD LAW

Committee Tables Measure It
Recently Approved, Pending the
Adoption of Building Code.

At its meeting last night the Council Committee on Ordinance, Charter and Reform voted to reconsider the ordinance recently recommended requiring woodyards to obtain the written consent of a certain number of property owners in the block in which they are proposed to locate. The measure was prepared by the City Attorney, at the request of Mayor McCarthy, following a woodland fire in which St. Luke's Hospital was placed in considerable danger.

Mr. Woodward, of the firm of Woodward & Son, lumber dealers, spoke for the various wood and lumber dealers presenting a strong argument against the adoption of the ordinance. In the case of St. Luke's Hospital, Mr. Woodward showed that both the wood and lumber yards adjoining had been there before the hospital was located on its present site. He said that many of the neighboring property owners had signed a protest against the coming of St. Luke's Hospital to the locality.

"Where all those engaged in lines of business liable to damage by fire are required to move beyond the city limits as is practically required by this ordinance, the dry goods stores, paper dealers and many other stores would also have to go," said Mr. Woodward.

"In both recent cases the fires in woodyards near St. Luke's were caused by stables on the premises," Mr. Woodward said he would not object to any reasonable regulation.

Colonel Grundy stated that he was informed that Dr. McGuire, of St. Luke's Hospital, was not in favor of the present ordinance, as he thought it too stringent, and unfair to the lumber dealers, and that the St. Luke's people merely wanted reasonable protection.

The ordinance was tabled after further discussion until the new building code is ready, when a portion of it will probably be incorporated in that document.

THE CRUISER INDEBTABLE

GLASGOW, April 30.—It is unofficially reported that the new cruiser Indefatigable, which is now undergoing her speed trial, has beaten all records, making 25 knots over a measured mile on the Clyde and 26½ knots in the continuous steaming trial. The Indefatigable is fitted with turbines, and her contract speed is only 25 knots. She is 17,250 tons and 520 feet in length. She was launched on March 16th last.

News Gathered From Southside..

Jeremiah Boykin, a wayfarer, claiming to be ninety-eight years old, was arrested yesterday afternoon by Officer Moore and locked up in the police station. Although Jeremiah swore that he had not touched a drop for ten months, nevertheless he was half seas over when taken in by the police, yet apart from this he told a pitiful tale of wandering and hard luck. Boykin, who has doubtless not reached the mature age which he claimed, was an old man, and had evidently been on the road for a long time, being scant of clothing and lacking for food. He said that he was from Smithfield county originally, but that for the last year he had been without work and with nowhere to go.

Although a Confederate veteran, he said that he had made repeated efforts to get in the Soldiers' Home, but without success, as the authorities had always claimed that they were crowded to the limit. The old man presented a pitiful sight as he looked out from the bars, saying that he was thankful to get lodging under any roof, as his resting place for the past month had been only under the naked skies.

At a meeting of the Street Committee last night it was decided without argument to recommend to the Council that the offices of City Engineer and Chief of Police be separated, and that one man be appointed to fill each position.

It was shown that the duties of the two officers were onerous, and that no one man could properly attend to both positions, and with practically no discussion, the ordinance was approved.

It is believed that the ordinance will pass the Council, but it is said that some members of the board oppose it, and that it will be defeated when it comes up before that body. The duties of the officers are at present too much for one man, and if the Council backs up the action of the committee it will give general satisfaction.

The Light Committee failed to get a quorum.

New Liquor Licensee.

Judge Clifton, in the Corporation Court, yesterday granted licenses to all who applied, but of the number who

did not seek a new license, it is reported that at least one was aware of the fact that his application would be refused.

Peter Donald, Jr., and A. F. Donald, 711 Hull Street.
Connie J. Dobbins, 401 Hull Street.
H. M. Burrows, 2210 Hull Street.

M. T. Burke, Railroad and Hull Streets.
D. L. Toney, 1115 Hull Street.
L. M. Latham, Tenth and Hull Streets.
John A. Turner, 1904 Hull Street.

The Manchester saloon list is reduced by five under the new licenses.

Mayor's Court.

"Squire" Jordan, presiding in place of Mayor H. A. Maurice, who is in Philadelphia, yesterday morning gave H. A. Pace ten days in jail. Pace was charged with being drunk, but claimed that his condition was due to lack of food. Two doctors who attended him said that he was weak for lack of proper nourishment, and "Squire" Jordan decided that he would be better off in jail until he entirely recovered his strength.

Opening of New Plant.

For the first time in the history of the South, coffee will be roasted to-morrow by heat generated by coal, and though the process is only an experiment in this part of the country, it is said that in the future all coffee companies in this section will use the same method. To-morrow will be the opening day for the Aragon Coffee Company, which has recently moved here from Richmond, and which has installed in its new plant the most modern machinery for the roasting of

coffee. The machinery was installed by James M. Beauford, of New York, representing the Jabez Burns Coffee Machinery Company. Mr. Beauford says that the manufacturer has one of the most complete plants in the country. To-day's work will be only an experiment, but it is seen that everything is running smoothly, regular operations will be shortly started. The plant, when in full operation, employs about forty men.

Sent to Grand Jury.

Robert Mayo, colored, about fifteen years of age, charged with stealing a pocketbook from Mrs. A. C. Atkins, was sent on from the Mayor's court to the grand jury yesterday morning. Mayo found the pocketbook, but failed to report his luck, and when accused it took two officers to get a confession, but he finally acknowledged, showing where the money was concealed. Robert was 11 short when the pocketbook was searched.

Last Day in Which to Pay Tax.

Only two more days remain in which to pay poll tax in order to vote at the November election, as the books will be closed Saturday evening at 6 o'clock, according to the law. While so far the voters have been paying up fairly well, the treasurer reports that there are still a number who have not paid and who will be deprived of their vote unless they do so by to-morrow night.

Personals and Briefs.

Mr. D. L. Toney has been confined to his home for the past few days by an attack of rheumatism. The health committee will hold a called meeting to-night at 7:30.

Councilman T. E. Taylor and wife have returned from a visit to the States where they attended the marriage of Mr. Taylor's sister, Miss Gracie C. Taylor, to Mr. Isaac H. Shan.

Yesterday morning in the Corporation Court notice of suit was filed by S. M. Perdue against Richard S. Ruchner and others, of Chesterfield county. The suit is for an undertaking, but the amount of which is not named in the notice.

F. and J. W. Morris, E. and J. H. Skipper, and others, of the city of York, Pa., filed a suit in the city of York, Pa., against Clarence Vaden of a lot at the northeast corner of Fourteenth and Bainbridge Streets for \$2500, other considerations. Clarence Vaden also had recorded a sale of a lot to Mrs. Sarah Ellen Reams, wife of G. W. Reams. The price paid was \$1000.

Folkman J. W. Moore's little son, who has been quite sick, is greatly improved.

JAP CRUISER SUNK

Explosion Causes the Death of a Number of Officers and Cadets.
TOKYO, April 30.—Admiral Yoshiyama, commander of the training squadron, reports that an explosion occurred in the stock magazine in the cruiser Matsushima early this morning while anchoring at Makung, a harbor on the Pescadore Islands. The Matsushima immediately sank until only the bridge was visible. Efforts at rescue by boats from the cruisers Kishinade and the Itsumushima continued until 9 A. M., resulting in the saving of the lives of 11 men, including some officers. The majority of the officers were not saved.

At the time of the admiral's report the cadets on board numbered 53 out of a total complement of 300. The sons of Baron Chinda, vice-minister of the Foreign Office, and Prince Oyama, said marshal, are among the cadets who, it is feared, are lost; also Captains Hame, Yoshiro and Yasuhiro. The cause of the explosion is unknown.
